

구성원 소개

Attorney Lee Chang-min is a versatile legal professional with outstanding capabilities in managing regulatory risks for technology-driven services. He is an all-round litigator capable of handling civil, criminal, and administrative disputes in an integrated manner.

After graduating from Yonsei University Law School in 2017, Mr. Lee served as a Public Service Advocate at the Seoul High Prosecutors' Office, where he was responsible for healthcare-related administrative litigation involving the Ministry of Health and Welfare, the National Health Insurance Service, and the Health Insurance Review & Assessment Service. His performance was recognized through commendations for exemplary case handling. He joined Barun Law LLC in 2020, and in 2024, he was seconded to fintech startup Finda Co., Ltd., where he gained hands-on experience with cutting-edge technologies and the regulatory frameworks governing them.

His major representations include:

- advisory and regulatory response in connection with applications to the Financial Regulatory Sandbox;
- defense in multiple cases involving misappropriation of trade secrets (including software and production process diagrams) under the Unfair Competition Prevention and Trade Secret Protection Act;
- investigation-stage defense in a Country-of-Origin Labeling Act violation case involving the smuggling of Chinese seaweed by a food company;
- a criminal complaint concerning violations of the Patent Attorney Act relating to services such as infringement evidence investigations conducted by a patent search service provider;
- trial-stage representation in connection with the Gwangju Hwajeong-dong apartment building collapse;
- criminal complaints alleging breach of trust in connection with the exercise of convertible bonds;
- dispute resolution, including injunction proceedings, concerning the status of land use right holders in real estate development projects; and
- administrative litigation challenging sales suspension measures imposed on SMEs by the Ministry of SMEs and Startups.

Drawing on his engineering background, Mr. Lee excels at structuring complex technical issues and applying such structured analysis to business decision-making and dispute resolution across a broad spectrum of legal matters.
